

IMPACTIVA FACTORY TECHNICAL AUDITS

FROM COSTLY DELAYS TO LOST SALES AND CHARGEBACKS, NON-PERFORMING SUPPLIERS CAN PUT YOUR ENTIRE OPERATION AT RISK

Manufacturing problems destroy profits. Delays in product launches, poor quality and reductions in supplier capacity: all can dramatically reduce margins. You have a lot at stake, so why risk having a supplier cost you an entire year of production, or more? At Impactiva, we can help. Our Factory Technical Audits produce detailed reports of the capability, quality and reliability of your current and potential suppliers, giving you the power to manage risk and make more informed business decisions.

WHY IS IMPACTIVA DIFFERENT?

THOROUGH, PROPRIETARY AUDIT PROCESS

We take a comprehensive approach to identifying supplier strengths and weaknesses. First our highly trained audit technicians will travel to each of your requested supplier locations and complete an in-depth review and evaluation, based on 15 categories with more than 150 specific criteria. Then they'll compile a full report with scores for all categories, an overall factory grade and a description of key issues for consideration.

VALUABLE INSIGHT TO IMPROVE YOUR BOTTOM LINE

Our audit reports will give you the information you need to save time, frustration and resources. Each category score will provide insight into an important aspect of the production processes, production support, management structures or business results of your current or potential suppliers. The result: more informed partnerships with higher performing, cost-saving suppliers.

UNPARALLELED TECHNICAL AND MANUFACTURING KNOWLEDGE

As the world's leading quality assurance company in the leather, footwear and apparel industries, Impactiva brings an unmatched level of technical manufacturing expertise to each Factory Technical Audit. Our technicians understand your products and the technical competencies required to manufacture them, allowing them to quickly identify weaknesses that can cause quality problems, delays and long-term damage to your brand.

Impactiva's Factory Technical Audits will give you the insight to manage supplier risk and enter into partnerships with higher-performing, cost-saving manufacturers.
