

IMPACTIVA SOURCING SERVICE

FROM COSTLY DELAYS TO QUALITY PROBLEMS AND CHARGEBACKS, NON-PERFORMING SUPPLIERS CAN PUT YOUR ENTIRE OPERATION AT RISK.

Manufacturing problems destroy profits. Delays in product launches, wasted management time and poor quality: all can dramatically reduce margins. You have a lot at stake, so why risk having a supplier cost you an entire year of production, or more? At Impactiva, we can help. Using our industry technical expertise and manufacturing knowledge, we'll find suppliers with the capability and reliability to best satisfy your sourcing requirements, giving you the power and insight to make more informed business decisions.

WHY IS IMPACTIVA DIFFERENT?

THOROUGH SOURCING PROCESS

We take a comprehensive approach to identifying suppliers with technical competence that matches your exact needs. First we'll discuss your sourcing objectives in detail, then ask you to provide two samples of each typical style to be sourced. We will then send you a list of recommended suppliers, along with corporate data on each. Finally, we'll take you to each requested facility and introduce you to the supplier. From there the relationship is 100% yours!

VALUABLE INSIGHT TO IMPROVE YOUR BOTTOM LINE

Our recommendations will provide you with the information needed to avoid the three or four seasons of delay common with non-performing suppliers, forcing you to restart the entire sourcing, trial and ramp-up process. You'll save time and resources. Moreover, you'll save the short- and long-term frustration of working with technically incompetent suppliers. The result: more informed partnerships with higher performing, cost-saving manufacturers.

UNPARALLELED INDUSTRY AND SUPPLIER KNOWLEDGE

As the world's leading quality assurance company in the leather, footwear and apparel industries, Impactiva's unmatched technical manufacturing expertise will be invaluable in finding you the right manufacturing partners. We understand your products and the technical competencies required to manufacture them, allowing us to quickly identify supplier weaknesses that could result in quality problems, delays and long-term damage to your brand.

Impactiva's Sourcing Service will give you the power and insight to create long-lasting partnerships with high-performing, cost-saving manufacturers.
